

Sand Lizard

(*Lacerta agilis*)

- Lizards are reptiles
- Sand lizards are very rare in the UK
- Sand lizards like to sunbathe on warm rocks or sand dunes to get lots of energy
- They can move really quickly and are quite hard to spot
- They live in sand dunes and heathland

Froglife is a UK wildlife charity committed to the conservation of amphibians and reptiles - working with people, enhancing lives together for a healthier planet. Find out more about our education projects and activities at www.froglife.org
