

Common frogs have a dark 'eye mask' and their smooth skin can be lots of different colours including green, brown, red, pink, orange and yellow.

**[www.froglife.org](http://www.froglife.org)**

*They have long striped back legs which they use to jump away from predators.*

*Frogs need to lay their spawn in water, but can also spend a lot of their time on land where they catch insects, worms and slugs to eat.*
